

Agamin Extra

KEY BENEFITS:

- HIGHLY CONCENTRATED
- PURE AMINO ACIDS
- SUPER MIXABLE
- CERTIFIED FOR ORGANIC

FARMING BY **bioagricert** INPUTS International **IFOAM** ACCREDITED

AVAILABLE FORMATS:

 **1/5/20/200/1000 L**

AGAMIN EXTRA was specifically created to boost vegetative growth and overcome the most common stresses of the crop. AGAMIN EXTRA allows the crop to recover from frost, hail, dryness and other severe environmental conditions that can affect the correct metabolic activity of the crop. AGAMIN EXTRA allows the crop to overcome mechanical, chemical and physical stresses caused by normal agricultural activity. AGAMIN EXTRA improves the balanced growth of the crop, improves the performance of the plant, improves the harvest and improves the quality of the fruit. AGAMIN EXTRA helps ensure very healthy plants, which are stronger and more productive.

COMPOSITION W/W

6.6% N

6.6% N organic

0.4% Organic Acids

42% Aminoacid

FOLIAR APPLICATION RATE

Culture	Application
Greenhouse Vegetables	2.0 - 3.0 lt/ha each 10 - 15 days vegetative growth, fruit- setting, fruit enlargement.
Winegrape and Table Grape	3.5 - 4.5 lt/ha each 15 days during vegetative growth, fruit-setting, fruit enlargement.
Strawberries	3.0 lt/ha each 15 days during vegetative growth, fruit-setting, fruit enlargement.
Industrials	2.5 lt/ha each 10 - 15 days vegetative growth, fruit-setting, fruit enlargement.
Fruit Trees	4.5 - 5.5 lt/ha each 10 - 15 days during vegetative growth, fruit-setting, fruit enlargement.
Cereals	1.5 - 2.0 lt/ha in combination with post emergency herbicide.

DRIP IRRIGATION APPLICATION RATE

Culture	Application
Greenhouse Vegetables	1.5 lt/1.000 m ² each 10 - 15 days during vegetative growth, fruit-setting, fruit enlargement.
Industrials	2.5 lt/1.000 m ² each 10 - 15 days vegetative growth, fruit-setting, fruit enlargement.
Flowers	2.0 lt/1.000 m ² each 15 days during vegetative growth.
