

Agamino P

KEY BENEFITS:

- QUICK PENETRATION
- HIGH MOBILITY
- CHELATED TRACE ELEMENTS

AVAILABLE FORMATS:

 **1/5/20/200/1000 L**

AGAMINO P is the suitable product to reinforce the plant through a quick application of phosphorous. The protection of the P with organic compound allows the product to supply the plants with an immediately available element that acts on the physiology of the crop. The chelated trace elements, correctly proportioned, ensures the right synergy between macro element and microelements using the protecting ability of organic carbon molecules. When the plant needs phosphorous and the grower needs to ameliorate the defence of the plant, AGAMINO P is the right solution.
